

After Alcohol Prohibition ended, we got Drug Prohibition.

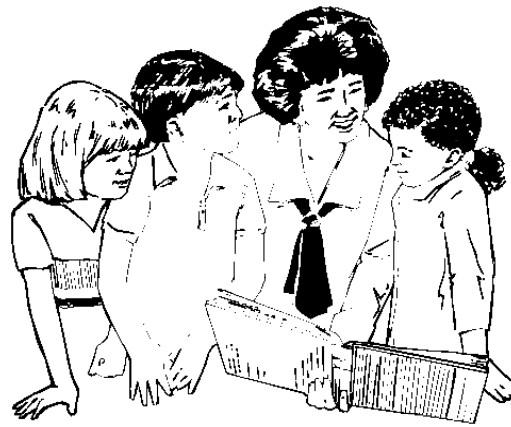

It brought us:

Drug dealing gangs
Public shoot-outs
High crime rates
Corrupt enforcement
High prison rates

Drug Prohibition costs billions of dollars and destroys thousands of families every year. It, too, is a failure.

SAVE OUR CHILDREN

End the Drug War.

Consider the alternatives:

- Provide honest education for youth.
- Set an age of consent for marijuana.
 - Medicalize addictive drugs.
- Treatment on request for addicts.
- Regulate and zone where and how all social drugs can be sold, *including* alcohol and tobacco.

**Alcohol Prohibition cost
millions of dollars and
destroyed thousands of lives.**
It was repealed as a failure.

Prison is not the answer.
The Drug War is a failure.

- Prohibition costs too much and harms families.
 - Illicit drugs are still available on our streets.
 - Drug enforcement is at an all-time high.
 - Our rights and freedoms are being violated.
 - Corrupt prison guards sell drugs to inmates.
- The CIA has been exposed for drug trafficking.
• Prison labor, secret police, property seizure without due process, and other human rights abuses occur every day — right here in America!

**It is time to use our national resources
to heal people, not simply to jail them.**

- Encourage personal responsibility for all adults.
- Provide honest drug education for our youth.
- Protect privacy, liberty and justice for all.
- Make the drug laws fair and consistent.
- Establish an age-of-consent for marijuana use.
- Regulate and zone where and how drugs can be marketed, *including* alcohol and tobacco.
- Medicalize addictive drugs to reduce harm.
- Offer free treatment for addicts who request it.
- Work within your own community to effect change.

- YES**, I want to help win national policies that reduce drug abuse among our youth.
- Please send me *Shattered Lives, Portraits from America's Drug War* (\$24 prepaid).
